PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 1.5+ years of experience delivering scalable, production-ready web applications using Angular. Proven track record of building CRM platforms and data-intensive dashboards for Maruti Suzuki. Expertise in RESTful API integration and responsive UI design. Adept at collaborating with cross-functional teams to translate complex requirements into performant, user-centric features on time.

PROFESSIONAL EXPERIENCE

Frontend Developer | Autovyn Consultancy Pvt. Ltd.

Dec 2024 – Present

- Architected and shipped the Maruti Suzuki CRM frontend from scratch — covering accessory sales, customer management, enquiry, booking, and invoice modules — now actively used across dealerships.
- Built reusable Angular components integrated with RESTful APIs, reducing feature development time by standardising UI patterns across the application.
- Implemented role-based UI access control, dynamic filter logic, and multi-panel responsive layouts, improving operational efficiency for sales and technician teams.
- Diagnosed and resolved critical real-time client UI issues affecting large datasets, improving application reliability and user experience across sessions.
- Collaborated with backend and QA teams in Agile sprints to deliver invoicing with live sales analytics and booking dashboards with real-time BI reports.

Frontend Intern | Gass Solution Pvt. Ltd.

Oct 2023 – Mar 2024

- Developed responsive web applications with the MERN stack (MongoDB, Express, React, Node.js), improving user experience across mobile, tablet, and desktop platforms.
- Built a reusable React component library (buttons, modals, inputs) adhering to ES6+ standards, reducing code redundancy and accelerating team velocity.
- Integrated REST APIs with Node.js to ensure seamless frontend-backend data flow and improved application performance.

KEY PROJECTS

Accessories CRM — Maruti Suzuki | Angular · REST APIs · Dynamic UI Filters

- Developed full CRM frontend covering enquiry, booking, and invoice workflows with real-time sales and booking analytics.
- Implemented dynamic technician assignment logic and configurable UI filters, enabling dealership staff to manage day-to-day operations without manual workarounds.

True Value Dashboard — Maruti Suzuki | Angular · Angular Material · Restful APIs · Responsive Design

- Delivered a high-performance dashboard with seamless UX across mobile, tablet, and desktop, serving multiple internal stakeholder personas.
- Engineered a shared component library (buttons, modals, inputs) to eliminate code duplication and accelerate feature delivery.

PET — Penetration Enhance Tool | Angular · AI/ML Integration · BI Reporting

- Contributed to an enterprise analytics and performance tracking platform for Maruti Suzuki serving MSIL leadership, distributors, and sales executives.
- Supported requirement gathering, UAT coordination, data validation, and cross-functional stakeholder communication throughout the project lifecycle.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: Angular, Angular Material

Version Control: Git, GitHub

EDUCATION

Bachelor of Arts (BA) | SS Jain Subodh PG College | *Graduated July 2018*
